Clothes Conversation Cards

Thirty questions that move outward, from what your students are wearing right now to who pays for cheap clothes. Each set has its own page: five question tags to cut out, a blank tag for your own question, and the worksheet for that set's talk rule. The numbers match the blog post on esllaboratory.com.

How to use the cards

Print only the set you need. Every page stands alone. Cut out the five tags, put them face down and work through them in order.

The rule makes the conversation. The green band at the top of each page is the talk rule. Describing a sweater is a vocabulary exercise; guessing why your partner chose it is a conversation. The worksheet under the tags is where the rule happens.

One-to-one or alone. You and your student both answer every card. A student working alone answers in writing and follows the *Alone* line on each worksheet. Answers to the practice exercises on pages 3, 4 and 5 are upside down under each exercise.

For the teacher

Keep it about clothes, not bodies. Students describe outfits, colors and choices. No student's size, shape or looks are up for comment, and set 3 is about claims on what a person decided, never on how they look.

Money is uneven in most groups. Sets 2 and 6 touch on what students own and paid. Nothing needs an expensive answer, a rough or invented price is fine, and any student can answer about a friend instead. Answer the first card of each set yourself: the class copies your tone.

SET 1 · QUESTIONS 1 TO 5

In the Room

A2-B1 · Pairs · 10 min
Activity: Not a Top: Say the Exact Word

Guess why. After each answer your partner guesses why you chose it. You say *Yes, that's it* or *No, actually …* Use the exact word for every item, never *top* or *shoes*.

SET 1 · IN THE ROOM 1 **What are you wearing right now, item by item?**	SET 1 · IN THE ROOM 2 **Which of those did you choose this morning, and which did you just put on?**	SET 1 · IN THE ROOM 3 **What is the oldest thing you have on?**

SET 3 · QUESTIONS 11 TO 15

On the Street

B1-B2 · Pairs · 10 min
Activity: Claim or Verdict?

SET 4 · QUESTIONS 16 TO 20

SET 6 · QUESTIONS 26 TO 30

On the Label

B2-C1 · Groups of 3 or 4 · 15 min
Activity: Cost per Wear

Put a number on it. Every opinion needs a number: a price, how many times you wore it, how many years it lasted. *Cheap clothes are bad* is a slogan. *I paid $8 and wore it twice* is an argument.

SET 6 · ON THE LABEL
26 Would you rather own ten cheap T-shirts or two expensive ones? Why?

SET 6 · ON THE LABEL
27 Have you ever bought something knowing it would fall apart soon?

SET 6 · ON THE LABEL
28 What is the most you have paid for one piece of clothing, and was it worth it?

SET 6 · ON THE LABEL
29 Is buying secondhand a way to save money, a way to help the planet, or just a style?

SET 6 · ON THE LABEL
30 Who should pay the hidden cost of cheap clothes: brands or shoppers?

SET 6 · YOUR QUESTION
+

Cost per Wear

PRICE **$90** ÷ TIMES WORN **150**

= $0.60 a wear. Sneakers worn three times a week for a year. A $60 party dress worn once costs $60 a wear.

Before card 26, each person adds three items: one you wear all the time, one you almost never wear, and one you regret. Guess the number of wears if you don't know. A rough price is fine. Then use the numbers in your answers to cards 26 to 30. **Alone:** fill in all six rows.

ITEM	PRICE	TIMES WORN	COST PER WEAR	BUY IT AGAIN?
a winter coat EXAMPLE	$200	about 400	$0.50	☑ Yes ☐ No
				☐ Yes ☐ No
				☐ Yes ☐ No
				☐ Yes ☐ No
				☐ Yes ☐ No
				☐ Yes ☐ No
				☐ Yes ☐ No

Look at the cheapest cost per wear in your group. Was it a cheap item?

NUMBERS
I wear it about … times a week.
It lasted … years.
That works out at … a wear.

JUDGING IT
It paid for itself.
It wasn't worth it at that price.
It was a bargain, until …

CARD 30
The brand should …, because …
The shopper can't …
It's on both of them.
